McKinstry - Front Desk Coordinator (Robert Half)

May 2025 - Mar 2026

- Supported building operations, facilities, IT, and security teams by triaging technical and operational requests, routing issues, and ensuring accurate documentation.
- Managed daily front-desk operational intake by answering employees and new-hire questions, offering clear guidance, and routing inquiries to facilities, IT, HR, and security to support smooth building operations.
- Coordinated arrivals, vendor check-ins, and onboarding by notifying the proper teams and ensuring organizational handoffs and prompt responses.
- Maintained sensitive operational documents and updated workflow trackers to support exact documentation, consistent follow-through, and reliable information flow.
- Created Microsoft Forms and Excel tools that standardized intake processes, and reduced repetitive manual steps, and improved clarity for employees seeking support.

Independent Contractor Work – Delivery Logistics & Skilled Trades Assistant

Apr 2023-Apr 2025

- Maintained consistent employment through flexible contract roles, including delivery logistics and hands-on support for residential construction projects.
- Strengthened reliability, time management, and customer service while adapting to varied work environments.
- Gained foundational experience with tools, site preparation, and material handling, supporting long-term interest in construction and sustainability.
- Demonstrated self-direction and accountability while transitioning toward more aligned career opportunities.

Texas Tech University - Student Success Specialist

Oct 2022 - Apr 2023

- Coordinated scheduling, communications, and resource allocation across multiple academic teams to support student success operations and help the Student Engagement Department to help with student retention rates.
- Maintained an independent Excel tracking system to organize student follow-ups, watch progress, and keep information accessible for ongoing support.
- Supported daily operations by organizing documentation, scheduling student appointments, and keeping records up to date for cross-team coordination.

Diversified Well Logging - Mud Logger I- III

Oct 2021 - Oct 2022

- Recorded and transmitted operational data from drilling sites, ensuring information was correct, organized, and delivered on time for field reporting.
- Trained team members on data entry standards and shift transition procedures to support consistency and smooth handoffs.
- Monitored supplies and equipment to prevent workflow delays and support continuous field operations.

Wellnest - Medical Receptionist (Robert Half)

Apr 2021 - Aug 2021

- Entered and verified client information with a focus on accuracy, completeness, and confidentiality.
- Supported intake and billing workflows through organized documentation and prompt system updates.

- Led sustainability initiatives to increase student participation in waste and energy reduction programs.

Thrd Place - Market Prospecting Intern

Jul 2013 - Aug 2013

- Conducted data analysis and supported organized outreach for community investment projects.

Project

Environmental Impact Assessment (CEQA-aligned academic project)

- Examining Los Angeles' long-term dependence on imported water from the Colorado River. Purchasing water was not a resilient or cost-effective strategy over a 25-year plan for an arid zone. By introducing permeable interlocking concrete pavers (PICP)- multi-layered sediment systems designed to filter stormwater- and appraising their resilience against city infiltration rates.
